DETAILED ACTION

Allowable Subject Matter

Claims 6-9 and 19-23 are allowed.

The following is an examiner's statement of reasons for allowance:

Prior art does not teach or suggest, in combination with the other claimed limitations, that the conductive layer is *completely* covered by the anisotropic conductive film.

Endo, the closest prior art of record, teaches partially covering a conductive layer with anisotropic conductive film (ACF), but expressly teaches, as shown in Figs. 3 and 4 and column 23, lines 29-36, that parts of the conductive films 21 and 25 remain uncovered. Endo teaches covering the regions designated "First TCP Connection Range" and "Second TCP Connection Range" in Figs. 3 and 4 with ACF, but the conductive layers 21 and 25 continue past these ranges, and remain uncovered.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
